

Allow students 5 to 10 minutes to complete one or both worksheets individually. Have pairs discuss and correct one another's papers. Then, go over them aloud; having them read the items will give them additional practice pronouncing the terms.

4. Use *Reproductive System Worksheet #5* as a large group exercise to reinforce understanding of the reproductive process.

Again, students can work individually, then pair, and then walk through it together as a large group, if their skill levels will allow.

5. Use *Reproductive System Worksheet #6* to further reinforce activity #2, above.

The Worksheet will require students to practice what makes a coherent paragraph, while requiring that they think through the chronology of reproduction.
